Using Vedagamic Principles To Address Global Problems and Crises Humanity Is Facing

"KAILASASM declares next year, 2021 as the "Global Year of Peace and Trust." So understand, looking at the world as 'Global' solves more problems, helps humanity, supports humanity in much better way. We need to use the principles of Vedas and Agamas, the Universal principle, Universal values to solve the crisis, problems of humanity, to solve the difficulties, dangers the humanity is facing globally. It is time we look at the Universe as Global family, not just as nations, multiple nations.

So please understand, whether decisions about Economy, decisions about Medicine, decisions about Travelling, decisions about Politics, decisions about basic Life Survival needs - food-clothes-shelter, fundamental Human Rights in every level, we should start using more and more Universal Principles, Universal Dharma, Global principles from Veda Agamic traditions."

The Supreme Pontiff of Hinduism,
Jagatguru Mahasannidhanam,
His Divine Holiness Bhagavan Nithyananda Paramashivam -

what is panchagam?

Panchangam is the Hindu Almanac. ‘Pancha’ means five and ‘Anga’ means limbs. The five limbs of Panchangam are Tithi, Vaara, Nakshatra, Yoga and Karana. The positions of the sun, moon and stars are used to know the quality of the astrological combinations at any given time. The elements of the Panchangam are not merely measures of time and space, but are living celestial divinities, whose daily blessings are auspicious and always benevolent.

Before every ritual, we chant the Panchagam, detailing our location on planet Earth as we record our sankalpa (intention) to the Cosmos, ensuring our sankalpa becomes a reality.

Māsa (Solar month): In the Shaiva Agamas, Paramashiva mentions that among the different types of calendars, the solar calendar is superior. The months are calculated based on the movement of the sun into different zodiac moon signs (rashis). For example, when the sun is in Mesha rashi, the month is called Mesha Māsa.

Tithi (Lunar day): Tithi is calculated based on the lunar day, along with the rising and setting of the moon in the sky. Tithi is the time period during which the moon gains 12 degrees, or integral multiples, of longitude on the sun. In this calendar, each Tithi will have a time next to it, indicating the end time of that particular Tithi. After that, the next Tithi automatically begins. Sometimes a lunar day is shorter or longer than the 24-hour solar day

Vaara (day of the week): Vaara is the day calculated in relation to the seven days of the week. They are Bhanu, Sunday; Soma, Monday; Mangala, Tuesday; Budha, Wednesday; Guru, Thursday; Shukra, Friday; and Sthira, Saturday.

Pakṣe (phase of the moon): The waxing phase of the moon is called Śukla Paksha, and the waning of the moon is called Krishna Paksha.

Nakshatra (stars in relation to the moon): Nakshatra is the time taken by the moon to traverse a segment of 13.33 degrees or integral multiples of nirayana (calculation without the movement of the sun) zodiac. There are 27 Nakshatras covering the 360 degrees along the zodiac.

Yoga (time measured in relation to the moon): Yoga is calculated from the sum of the nirayana longitudes of the sun and moon. When this sum amounts to 13.33 degrees, the first yoga ends. When it amounts to 26.66 degrees, the second yoga ends and so on. There are 27 yogas covering 360 degrees.

Karana (time measure which is half a Yoga): Karana is the time period during which the moon gains 6 degrees in longitude on the sun, and thus there are two karanas covering two half periods of the time period of a Tithi. There are 7 karanas that repeat in a cyclical order, starting from the 2nd half of Shukla Paksha, and ending at the first half of Krishna Paksha Chaturdashi (14th lunar day of the waning phase of the moon). There are 4 Sthira, or non-recurring karanas, that cover the period from the 2nd half of Krishna Chaturdashi to 1st half of Shukla Pratipada. It is the same way for Tithi: the name of karana will be shown along with its end time.

How to read this calendar?

Samvatsara (Year)

Māsa (Month): 12 months are divided into 2 parts:

Uttarāyane is the first part of the year when the sun moves towards the north pole.

Dakshināyane is the second part of the year when the sun moves towards the south pole.

T: Tithi Vaara (Weekday)

N: Nakshatra

Y: Yoga

K: Karana

RK: Rāhu Kāla

Krishna Pakṣe : Waning of the moon

Shukla Pakṣe : Waxing of the moon

Pradośam Day:
Abhishekam is performed for Nandi twice per month: 2 days before the full moon and 2 days before the new moon.

Kāla Aśtami

Chitra Nakshatra Day:
The Avatar's Birth Star Day

Amāvāsyā :
New Moon Day

Purnima :
Full moon Day

~~rituals to be performed during these periodic events~~

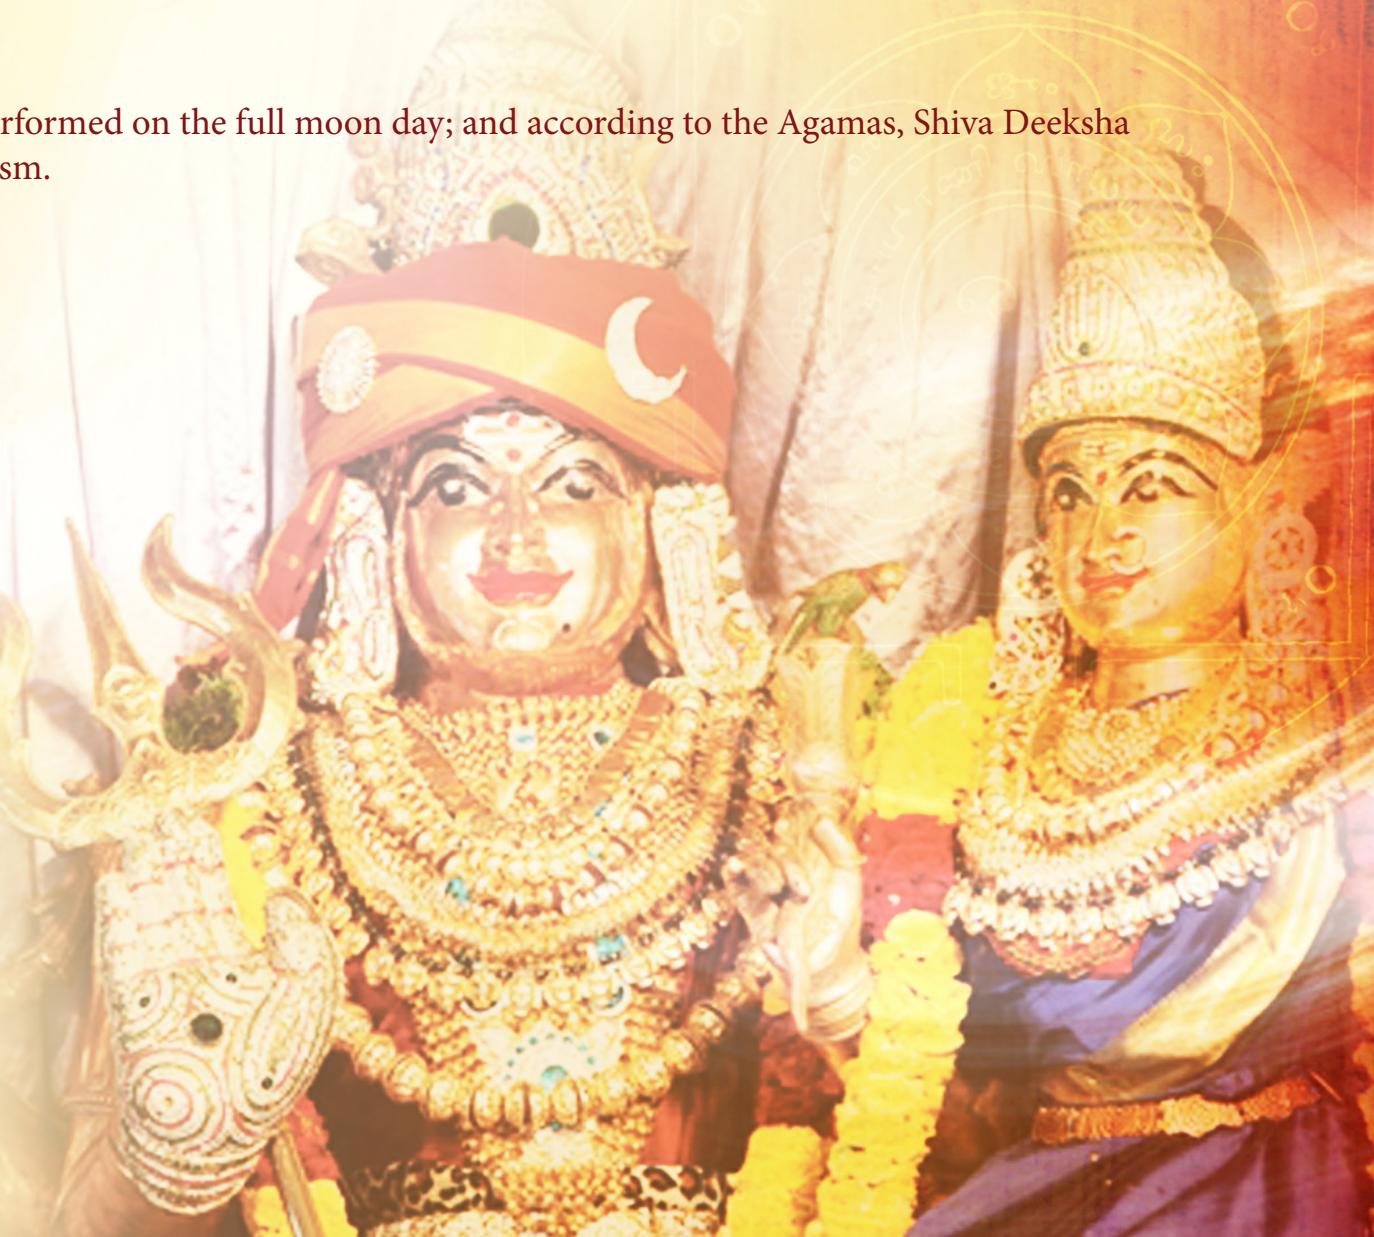

Amāvāsyā - New moon day is called Amāvāsyā. Munishwara abhishekam and Navagraha abhishekam takes place at the temple on this day.

Purnima - The Purnima Rudra abhishekam is performed on the full moon day; and according to the Agamas, Shiva Deeksha initiation is given by The Supreme Pontiff of Hinduism.

Pradośam - On Pradośam day, according to the Shiva Sampradaya, Nandishwara abhishekam is conducted in the Pradosha Kāla. Pradosha Kāla will be calculated with the combination of the trayodashi tithi and the sunset of the day. Many people do ritual fasting (upavasa) on Pradośam day, breaking their fast after the Nandishwara abhishekam.

Chitra Nakshatra - This is the most auspicious star of the celestial stars. The Avatar was born on this Nakshatra. Chitra Nakshatra abhishekam is done to either the Deity or the Padukas of The Supreme Pontiff of Hinduism.

Brahmotsavam - The two main festivals of Nithyananda Sangha are Avatara Janmotsava, celebrating the Advent of The Avatar; and Nithyanandeshwara Paramashiva Brahmotsavam, celebrating Lord Nithyanandeshwara Paramashiva.

hinduism for humanity

From the beginning of human civilization, nestled in Naimisaranya, the sacred forest city, located in presently known as Uttar Pradesh India, lay the root and foundation of Sanatana Hindu Dharma (Hinduism). Here, the foremost and oldest Vedic University for humanity evolved, untouched by the effects of any age.

The ancient seers (Rishis) and Enlightened Masters of the Vedic times, as a collective consciousness, instituted cosmic research and development centers, dedicating millions of years of spiritual practices for discovering, nurturing and protecting the sacred truths for humanity. Their original revelations and mystical discoveries were systematically recorded and coded as the Vedic scriptures and transmitted in its pristine purity through the oral tradition of the Guru-disciple lineage. They had access to reservoirs of knowledge and powers that decoded every field: science, technology, meditation, healing, yoga, medicine, education and the enlightened lifestyle. "Our Rishis and Munis have been adept and master in every field, whether health or keeping the society safe. So all the varitham, puja, spiritual techniques, religious rituals, anything they designed, is highly scientific and directly useful to the life."

HINDUISM IS ABSOLUTE LIFE POSITIVITY. IT'S ALL ABOUT EXTREME ENLIGHTENMENT AND TRUTH IS THE ONLY AUTHORITY IN HINDU TRADITION.

healing problems humanity faces is our spiritual responsibility

SARVAJNAPEETHA - is the all knowing seat of knowledge. Whenever the core foundation of the Vedic civilization is in danger, an Avatar (incarnation) descends to revive, protect and radiate Sanatana Hindu Dharma for the whole of human civilization. Just as Lord Krishna did towards the end of the Dwaparyuga, Lord Rama did during the Treta Yuga, so has in this Kali Yuga, The Supreme Pontiff of Hinduism, Jagatguru Maha Sannidhanam, His Divine Holiness, Bhagavan Nithyananda Paramashivam descended as the Reviver of the Enlightened Ecosystem.

Hinduism has stood for eons as an enlightened civilization and has been a global beacon of spiritual and timeless wisdom, technology and culture. The ancient Hindu civilization geographically contained in India produced more than 40% of the world's GDP.

gurukul

Gurukul (Guru Sampradaya) is the most modernised yet traditionally rooted education system in the world. The Nithyananda Gurukul is a place (virtual and physical) where children, from a young age, are exposed to the science of Enlightenment; where they are engaged with LIFE in the most positive ways, where they are not compared with each other but are instead guided to live their highest potential, discovering their Uniqueness and Oneness with the Divine, Paramashiva. It's about Excellence rather than Success.

"Education means constantly breaking your impossibilities, making all the best possibilities manifest".... "Understand, breaking restrictive patterns and making you manifest your ultimate reality is Paramashiva's Education".

The Nithyananda Gurukul nurtures Genius level thinking, Excellence, Compassion, immense Maturity, Powerfulness and the right Cognitions about life according to the Vedas and Agamas, moulding them into incredible future world Leaders. The students are third-eye awakened beings who are trained in Authentic yoga (revived by The Supreme Pontiff of Hinduism) and understand the importance of keeping the body pure and healthy. Not only are they incredibly healthy & physically fit, but they are able to manifest various powers (Shaktis) that can literally heal a person and transform lives. They have from as young as age 12, been able to provide sound advice to many . Studies have shown that students of Nithyananda Gurukul have much higher IQ levels than kids their same age. Many across the globe have also experienced and continue to experience the many benefits of healing as they entangle with those who radiate the State, Space, Powers, Being and Superconsciousness of Paramashiva.

autocratic leader -led democracy

"The Benevolent Autocratic Visionaries should be the leader within the Democratic System. Certain powers should be democratic but vision should be in the hands of Benevolent Autocratic Leaders."

This form of Leadership has allowed for the flourishing of the ancient Vedic, Enlightened Civilization for thousands of years. It created a great sense of trust, love, respect and peace amongst the community and within the Kingdoms. It created as well, the space which allowed the people to voice their opinions openly and be heard, but also to receive the directions and guidance from Paramashiva himself through the Guru or Spiritual Head.

In the Adi Shaiva community, often the kingdom's spiritual head was its Political, Economical, and Cultural head. The political rule (Arasatchi) was not separated from the economic rule (Porulaatchi), and neither of these were separated from the core principles of ASMT(Adi Shaiva Minority Traditions). For example, The Pandyas considered the Kamika Agama of ASMT (scriptures on the science of living an enlightened life) written by Paramashiva (the original author of yoga) as the core spiritual guide for the people and the kingdom. Thus, the political understanding of the people and the nation could only be made with someone who was a master of the Kamika Agama, and who understood its principles deeply.

This sort of leadership and system is time tested, full-proof and is being revived by The Supreme Pontiff of Hinduism in all KAILASA's, Hindu Nations across the globe with the hope of creating model communities that function in synchronicity, harmony and overflowing bliss and abundance.

varnashrama dharma - the science of stable society

"The Hindu Varnashrama Dharma is the most beautiful science developed for a best stable society." " It is the most beautiful system where Responsibility is encouraged, where you take responsibility for your life and others life.... Hindu society was based on specialization."

There was a time when we were so vast in our heart. The Satya Yuga.. The Supreme Pontiff of Hinduism beautifully explains "Vedic tradition is very clear, all the four major powers of the human society: Knowledge, Weapons, Money/Wealth and Land - All these four were kept separately, to different four groups, so that the decentralization of the power was always maintained. There is no centralization, there is no authoritative governance. There is always a democracy. Even if there is a King, he always has to be a benign ruler, benign authority, benign autocracy. He can't be just doing what he wants, because knowledge is with a different group, wealth is with a different group, weapons are with a different group, and land is with a different group."

The four main groups who were responsible for maintaining the four major powers of society (as mentioned above) are the : **Brahmanas** - Wisdom & Knowledge keepers, **Kshatriyas** - Warriors and Protectors (Army / Weapons), **Vaishyas** - Wealth creators and sustainers and **Shudras** - Stewards of the Land and abundant ecological and food systems.

The Hindu societies were the most life positive, designed by Paramashiva himself and beautifully crafted in such a way where there was amazing resource distribution , where there was absolute law and order, where women were revered, honored and protected along with their children; societies where the vulnerable people were protected at every level creating a very stable, just, equitable and abundant society. The Rishis & Visionaries of the Vedic Tradition, (Smritikaras of Hinduism) made all of this possible.

joint family system

"I checked, tested, scanned all types of lifestyles. So from my research for a common man the best lifestyle will be joint families."

The Supreme Pontiff of Hinduism,

Jagatguru Mahasannidhanam,

His Divine Holiness Bhagavan Nithyananda Paramashivam.

The joint family system has been around since the beginning of human civilization and is quite prevalent in many Asian countries still to this day, especially in India. It usually refers to families which consist of one or more married couples residing with their children and other close relatives, such as grandparents, aunts, and uncles, all in one home OR as it can refer to a group of persons (non blood related) who consciously decide to live together as they are connected vibrantly with a certain ideology or concept.

The family unit forms the foundation to society as it plays an important role in the development of children. Stable families create stable, thriving and just societies.

In the Vedic tradition, the joint family was the norm for eons and most recently we've seen this slowly shifting as urbanisation and gender roles have evolved. According to research, joint families act as a close knit community and have been proven to support social, cognitive, sensory, motor, speech and language demands of the child which helps in the development of communication, social interactions, learning skills and ability to adapt to changing environments. It can provide the best balance, support and nurturing environment for family members of all ages, especially senior relatives as they are continuously required to learn new skills and become actively part of the children's lives, removing several issues related to loneliness, alzheimers and depression. "It does so much for the inner growth." says The Supreme Pontiff of Hinduism.

With the disintegration of joint families, The Supreme Pontiff of Hinduism is here to revive this traditional, sacred way of living which was designed by Paramashiva himself for a more stable, thriving, blissful and enlightened society.

the untold, ongoing genocide, ethnocide of hinduism- the biggest crime against humanity in world history!

1000 years ago, there were 56 Hindu nations, 200 Hindu Kingdoms, 1700 Hindu Samasthana (Provinces) and 10,000 Hindu Sampradayas (traditions). Today, this has all been lost, including the last constitutionally declared Hindu nation on the planet, Nepal. With nearly 500 million Hindus killed over the last 500 years, this fact, this truth is unheard of by most, including Hindus.

Denied by the historians and untold by its victimised survivors, The Hindu Holocaust has been the systematic, egregious and ongoing genocide on the most ancient, living civilization on the planet earth!

“THE AMOUNT OF DEATH CAUSED TO HINDUS BECAUSE THEY ARE HINDUS IS MULTIPLE TIMES MORE THAN JEWISH HOLOCAUST DEATH”

The Supreme Pontiff of Hinduism is the most Persecuted Hindu Leader of the Millenium because He is reviving Hinduism and the Enlightenment Civilisation, KAILASASM.

**100+ Assisination Attempts
10,000 + News Articles spreading FALSE NEWS
14,000 hrs of HATE SPEECH
Over 10M USD spent by Anti-Hindu + Anti-Guru Hindu Mafia**

Hindus have time and again suffered religious persecution in the form of forceful conversions, massacres, demolition and desecration of temples, confiscation or destruction of property, incitement to hate, imprisonment, torture, murder, destruction of universities and schools and crimes against women and children.

renaissance of an enlightened civilization

Hinduism was the governing principle for the 56 Hindu nations, a world that was known in ancient times. Hinduism has stood for eons as an enlightened civilization and has been a global beacon of spiritual and timeless wisdom, technology and culture. The ancient Hindu civilization geographically contained in India produced more than 40% of the world's GDP .

During the time of Mahabharata, we (Hindus) had 56 Desas (countries), 200 States, 1700 Samasthanas (provinces) and 10,000 Sampradayas (traditions). Included in these were the present Nepal, Sri Lanka, Kashmir, Tajikistan, Bulkh, Turkmenistan, Kyrgystan, Tibet, Iraq, Gomantaka (now Goa), Malaysia, Iran, Burma, Indonesia, Bangladesh, Myanmar, Cambodia, Pakistan, Maldives, Singapore and Afghanistan.

"In all, we (Hindus) are persecuted. KAILASASM is the country for all the persecuted Hindus. Now, we have lost all of the 56. The last one to fall was Nepal. 56 countries we had - and we don't have a single one now. I am the collective voice of all the persecuted Hindus. I will revive and rebuild a Hindu nation built on Vedagamic principles as a refuge for all practising and aspiring Hindus, a safe haven for all persecuted Hindus."

"The Enlightenment Science And The Greater Knowledge About Everything In The Cosmos Is Vested With Hindus. Hindus Need To Survive, Thrive, Flourish Share This Knowledge With The Whole World. We Can't Afford To Collapse."

The Supreme Pontiff of Hinduism,
Jagatguru Mahasannidhanam,
HDH Bhagavan Nithyananda Paramashivam

kailasa's economy

The Foundation of KAILASA's Economic Principles are best explained in this powerful message from The Supreme Pontiff of Hinduism, Jagatguru Mahasannidhanam, His Divine Holiness Bhagavan Nithyananda Paramashivam.

"People are Wealth, Life , Energy, Ultimately God! To enrich people, RESERVE BANK OF KAILASASM.your involvement with people shows your involvement with life. Thus, KAILASA's Economic Principles are designed keeping People and their Interests as the foremost and only criteria."

On 22nd August 2020, on the auspicious day of Ganesh Chaturthi, the Supreme Pontiff of Hinduism announced that The Reserve Bank of KAILASASM has signed an MoU with a nation that has graciously agreed to host them. The Reserve Bank of KAILASASM (RBK) would be functioning as a legitimate body in that country. RBK is banking and financial services which adhere to the Hindu economic policies as laid down in the Vedas and Agamas, the sacred texts of Hindus and cater to the Hindu diaspora across the world. KAILASA's currencies will be used only in the countries with which KAILASASM has signed Diplomatic Treaties.

On 22nd August 2020, The Supreme Pontiff of Hinduism released (ritualistically) the KAILASIAN Currencies which are gold based. Each dollar is 1 Tola (Hindu measurement unit) equivalent to 11.66 grams gold. 1 Tola would be known in the three official languages of KAILASASM as: 1 KAILASIAN Dollar; English. 1 Swarna Mudra; Sanskrit 1 Por Kaasu; Tamil.

2021 - GLOBAL YEAR OF PEACE AND TRUST

Humanitarian & Ambassador of Peace & Trust -
The Supreme Pontiff of Hinduism, Jagatguru

Mahasannidhanam, His Divine Holiness Bhagavan Nithyananda Paramashivam, has been for almost 3 decades bringing the science of Enlightenment to millions across the globe. Belonging to the Adi Shaivism sect (a minority sub-sect of Hinduism and an indigenous community on the verge of extinction), He stands firmly on the principles of Oneness (Advaita) and Peaceful co-existence with humanity, living beings, and Nature at large.

The Supreme Pontiff is a world renowned Humanitarian and has been working from the very grassroots level to usher in an era of Peace at all levels – individual, societal, national and global. His deep insights into the workings of the human mind-body-emotions have enabled him to powerfully and directly address various social and emotional problems facing humanity today. The Life Solutions based on the ancient Hindu tradition : Meditation and Yoga techniques from the core scriptures (Vedas & Agamas), the Cognitions rooted in the highest truths (Satya), the Lifestyle (Charya Paddathi) based on living and radiating the higher values of life to realize one's ultimate potential – all of these form the foundation of The Supreme Pontiff's teachings which by their inherent nature, provide the Foundation for Peace on Planet Earth.
